How the choices were selected

Qualifying options are grouped by programme; programmes are ranked by your stated preference order (if any), then by availability at three or more universities, then by data quality (university-specific, recent cutoffs first), then by cutoff (most selective first). 1A-1C are the same programme at three universities (names that differ only by connector words such as "in" or "of" are treated as the same programme); 2-4 are the next ranked programmes.

- You did not state programme preferences, so these are suggested choices, not your preferred order.

This report does not submit anything to KUCCPS. Review your final choices against the current official KUCCPS application instructions, programme availability and requirements before applying.

SECTION 2

All qualifying degree programmes

1472 programme-university option(s) meet the published minimum subject requirements and have a cutoff at or below your estimated cluster score. They are listed from the HIGHEST cutoff (the most competitive programme you qualify for) down to the lowest. A * marks a shared minimum cutoff. Programmes below the cutoff are not listed.

Calculation notes: grade points use the 12-point scale (A = 12 ... E = 1). The aggregate uses English, Kiswahili, Mathematics and your best four other subjects, a common description of the KCSE mean-grade subjects that is not stated in the KUCCPS documents supplied to this tool. The mean grade is an estimate, not an official KNEC result.

SECTION 4

Methodology and important disclaimer

How your results were produced

- Cutoff data: latest-specific-verified. This prefers, for each programme, the newest cutoff specific to that university; a value marked * is a shared minimum printed identically for many universities. Each listed programme shows the cutoff year actually used, and a missing cutoff is never treated as zero.
- Cluster score: C = sqrt((r / 48) * (t / 84)) * 48, where r is the sum of your points in the four cluster subjects and t is your aggregate (best seven subjects). This is an ESTIMATE based on a formula published by third parties, not an official KUCCPS score.
- A programme is listed only when (1) the published minimum subject requirements are met and (2) your estimated cluster score is equal to or greater than the selected cutoff. The comparison uses exact arithmetic, not rounded display values.
- Historical cutoffs describe past cycles and are not a guarantee or prediction of future placement.
- KUCCPS remains the authority for programme requirements, application instructions and placement. Confirm current requirements and programme availability before you apply.
- General KUCCPS guidance, to be confirmed on the official site: degree programmes normally also require a minimum overall KCSE mean grade. This tool applies only the requirements printed in the supplied documents.
